

SEND OUR FLEETS DOWN TO AID CUBA

SENATOR TURPIE ADVANCES A SUGGESTION.

Vigorous Action in Behalf of the Insurgents Favored by the Indiana Statesman—System of Loaning Bank Reserves Criticized—In Laborer's Rests—Washington News

On April 9.—Senator Turpie in the senate was in many respects the most eloquent and vehement utterance on that subject. While arguing for radical action on Cuba, even to the extent of sending a fleet to Cuban waters, Mr. Turpie's speech was given with a calm and ridicule of the course of Sherman and Mr. Lodge in making Cuban resolutions. Most of the day was given to the Indian affairs bill, which was not completed. A unanimous consent was secured for taking up the resolutions for a senate inquiry into recent bond issues next Tuesday. Mr. Lodge (rep., Mass.) gave notice that he would take up the immigration bill April 16, and Mr. Nelson (rep., Minn.) said he would submit some remarks on that subject. The bill was passed granting a pension of \$50 monthly to the widow of Charles S. Hamilton.

Something of a debate on banking came up on Mr. Teller's request that a bill requiring national banks to keep their reserves in their own vaults be referred to the committee on finance. Mr. Teller said there was a congestion of money in the large eastern cities, growing out of the fact that the law permits bankers to keep their reserves in New York city, drawing interest, and thus taking the funds from local use. He regarded this as very detrimental. Last September \$200,000,000 of this outside money was tied up in New York. It tended to increase speculation. He was informed that 75 per cent of these funds was used in stock speculation and not in legitimate business. He urged the finance committee to advise some method of reform.

Mr. Hoar (rep., Mass.) agreed with Mr. Teller that a reform was necessary. Since the national bank law went into force the practice had grown up of having outside banks deposit their reserve funds in the large cities in order to get the interest. It prevented the former reciprocity of interest between the local borrowers and the local banks. The borrowers now dealt through brokers who dealt with the large cities. Gradually, said Mr. Hoar, we were building up two huge corporations—one the money-borrowers and the other the money-lenders. In case of panic the whole structure would tremble as though a nerve had been touched. In his opinion the banking law should be amended so as to prevent the payment of interest on reserve deposits in all cases.

Mr. Morrill, chairman of the finance committee, said both the senators were mistaken, as banks of standing did not pay interest on reserve deposits.

Mr. Hoar insisted that they did, and cited the Boston banks, which, he said, paid 3 per cent on outside deposits. The bill went to the finance committee.

The senate went into executive session for the purpose of allowing Mr. Sherman to give notice that he would ask at an early day to take up the treaty providing for a commission to consider the Bering sea seizure claims. Owing to the absence of Senator Morgan the treaty was not pressed and if the senator is able to attend soon consideration will be deferred. Senator Morgan is reported much better. Senator Sherman, appearing for the foreign relations committee, said it was desirable to have the treaty disposed of as soon as possible.

AMENDED THE BILL.

No Aid for Ecclesiastical Institutions in District of Columbia.

Washington, April 9.—The District of Columbia appropriation bill, which was recommitted to the committee by the house on account of the aid carried by it to charitable institutions, has been considered by that committee and remodeled so far as it applied to private institutions. All of the items for private and semi-private institutions which have heretofore depended largely upon the government for support were stricken from the bill. In place of these appropriations a lump sum of \$94,700, equal to the total of the various items, is added for the relief and care of the poor and such charitable and reformatory work as has heretofore been provided for by direct appropriations, to be expended by the district commissioners, either under contract or by employing the public institutions of the district. Contracts are limited to June 30, 1897, the end of the next fiscal year, the commissioners are required to render an account of their disbursements and strict limitations are placed upon their powers.

The amendment ends with this clause: "That no part of the money here appropriated shall be paid for the purpose of maintaining or aiding, by payment for services or expenses or otherwise, any church or religious denomination or any institution or society which is under sectarian or ecclesiastical control."

BILLS TO BENEFIT LABOR.

Mr. Corliss Would Allow None But Citizens on Government Work.

Washington, April 9.—The house

committee on labor Wednesday heard Mr. Corliss (Mich.), who advocated the passage of his bill providing that all persons employed by the United States, or by any contractor or sub-contractor doing work for the United States or the District of Columbia, must be full citizens of the United States.

Samuel Gompers, president of the American Federation of Labor, said that as the several branches of his organization had not expressed an opinion on Mr. Corliss' bill he would say nothing in regard to it. He favored Representative Phillips' bill to enforce the eight-hour law in connection with government work of all kind and also advocated the passage of a bill to prohibit the transportation between states of the product of convict labor. He expressed a hope that the bill appointing a labor commission, which has been favorably reported by the committee, would become a law.

Contest Cases Settled.

Washington, April 9.—Four contested election cases have been decided by house elections committee No. 3. In only one case was the report adverse to a member now holding the seat, that of Murray vs. Elliott, from the first South Carolina district, which is favorable to Murray. The other cases were: Johnson vs. Stokes, seventh South Carolina, in favor of Stokes; Kearby vs. Abbott, fifth Texas, in favor of Abbott; Ratliff vs. Williams, fifth Mississippi, in favor of Williams. In the last case the contestant did not make an appearance and minority reports will be filed in all the others.

Against the Metric System.

Washington, April 9.—The bill to adopt the metric system of weights and measures was sent back to the house Wednesday to the committee on coinage, weights and measures for further consideration. On the first vote it had a majority of two, but the opposition was aggressive and after a series of votes it was recommitted, 130-59. The remainder of the day was devoted to debate on the bill to exempt sailing vessels engaged in the coastwise trade from compulsory pilotage laws with the understanding that a vote should be taken at 2 o'clock today. The conference report on the agricultural appropriation bill was adopted.

To Prosecute Sugar Men.

Washington, April 9.—The government will push the prosecution of the witnesses indicted for contumacy in refusing to answer questions of the senate sugar trust investigating committee two years ago. The principal defendants are President Havemeyer and Secretary and Treasurer Searles of the American Sugar Refining company, Broker W. J. McCartney of Washington and Newspaper Correspondents E. J. Edwards of New York and J. Schriver of Washington.

To Abolish Sub-Stations.

Washington, April 9.—The amendment attached to the postoffice appropriation bill in the senate prohibiting the establishment or maintenance of stations, sub-stations and branch post-offices beyond the corporate limits of a city or town in which the principal office to which it is attached is located, if agreed to by the house, will cause all such offices to be abolished by the department at the close of the present fiscal year, and will throw most of them back into the fourth class.

Bankruptcy Bill Completed.

Washington, April 9.—The house committee on the judiciary has completed its work upon the bankruptcy bill and decided to report the bill to the house this week. The measure is based upon the old Torrey bill, which has been before congress for several years.

Little Esther Doing Nicely.

Washington, April 9.—Dr. O'Reilly, the white-house physician, who is attending the Cleveland children at Woodley, reports that little Esther is coming along nicely, and that so far the measles has not spread to the other children.

Franklin Is Now Governor.

Washington, April 9.—The senate, in executive session, confirmed the nomination of Benjamin J. Franklin, of Phoenix, Arizona, to be governor of Arizona, vice L. C. Hughes, removed.

Without President's Approval.

Washington, April 9.—The act originating in the senate to authorize the leasing of lands for educational purposes in Arizona has become a law without the president's approval.

Iowa Crop Prospects Good.

Ottumwa, Iowa, April 9.—The crop prospect all along the "Q" lines is good. Telegraphic reports to the office of Superintendent Stewart from all points along the division are to the effect that a heavy rain fell at all of the Iowa points. At Milo it was the heaviest, the total there being three inches. Snow fell at Mount Pleasant. This enhances the crop prospect greatly.

Michigan Wheat in Danger.

Lansing, Mich., April 9.—The Michigan crop report for April says that wheat in the fall made small growth, but the winter was not unfavorable, and it suffered very little injury previous to about March 20. The condition of wheat now is more critical than at any previous time since sowing.

Quay Resolutions Adopted.

Danville, Pa., April 9.—At the Seventeenth district republican convention resolutions indorsing Quay were adopted.

SILVER AND WATER ARE THEIR IDOLS

ILLINOIS PROHIBITIONISTS GO ON RECORD.

State Convention at Springfield Adopted a Minority Report on the Money Question—National Delegates Are Selected—The Ticket Is To Be Nominated Today.

Springfield, Ill., April 9.—Over 700 representatives of the prohibition party of Illinois, in convention assembled Wednesday, reaffirmed their allegiance to the cause of prohibition and declared themselves in favor of woman suffrage, civil-service reform, education in the English language, Sunday rest, the election of United States senators by popular vote, the appointment of a tariff commission and the free and unlimited coinage of silver.

At 10:30 George W. Gere, chairman of the state central committee, called the convention to order, and introduced Rev. C. S. Medbury, pastor of the Christian church at El Paso, who opened the convention with prayer. Mr. Gere then announced that the committee had agreed upon the following as the temporary officers of the convention: Chairman, Oliver W. Stewart, of Mackinaw; secretary, Alonzo E. Wilson, of Chicago; assistant secretaries, Geo. Gobart, of Ashmore; E. G. Jackson, of Aurora; J. W. Tineser, of Xenia, and A. L. Matthews, of Begota; sergeant-at-arms, John E. Vertrees, of Pittsfield. These officers were afterward made permanent.

The finance committee was instructed to select thirty delegates and thirty alternates at large to the national convention at Pittsburg, Pa.

The congressional caucuses reported their selections for the state central committee and presidential electors.

The finance committee then reported the names of the following delegates and alternates at large:

Phillips, Chicago; the Rev. C. S. Meadbury, El Paso; Hale Johnson, Newton.

The report of the committee was adopted after some discussion.

The report of the committee on resolutions was read by Hale Johnson of Newton, the chairman, and the minority report was read by A. T. Smith of Decatur. This precipitated the fight of the day, ending in the adoption of the minority report.

The following is the money plank adopted: "We declare that money should consist of gold, silver and paper, and be issued by the government strictly to the people, without the intervention of any private individual or corporation, and to be a full legal tender for all debts, both public and private. That the government should not discriminate in favor of gold as against silver, and that its mints should be open upon equal terms to both at the ratio now established by law. We oppose the issuing of government bonds in times of peace."

The following declarations also appear in the platform: "All combinations designed to enrich the few at the expense of the many should be suppressed. We favor arbitration as a means of settling disagreements between employers and employees. We are opposed to alien ownership of land. All means of transportation and communication should be controlled by the government for the benefit of all the people."

Capt. Harts of Lincoln, who made the motion for the substitution of the minority report on the money question for committee on that question, said that he believed that the party could not afford to straddle on the financial question, and characterized the majority plank as substantially the McKinley plank in the Ohio platform.

DEADLY BOILER EXPLOSION.

Two Employees Killed and Four Others Badly Injured.

Newville, Pa., April 9.—An explosion at the saw mill of Dennis Boyd, situated nine miles north of this place, on Wednesday resulted in the death of two men and the injury of four other persons, two of them girls. The dead and wounded are:

John Boyd, 35 years of age, son of Dennis Boyd, the proprietor of the mill.
George Oiler, 22 years of age, son of Andrew Oiler.

Andrew Oiler, a veteran of the late war; lost the sight of one eye and had his arm broken.

Two of Oiler's daughters and a younger son were also badly hurt.

The explosion occurred immediately after the men had finished their dinners. The men, with a number of other employees of the mill, were sitting in front of the huge boiler, while several workmen were engaged in repairing a belt. Suddenly and without any warning the boiler blew up, wrecking a part of the building and instantly killing young Boyd and injuring young Oiler so badly that he died within a few minutes. The other men and the young children were hit with fragments of the boiler and wreckage from the building. The elder Oiler was struck in the head with a large piece of the iron, which destroyed his eyesight and broke his arm. The cause of the explosion is unknown.

Whole Family Cremated.

Accused of Triple Murder.

Akron, O., April 9.—The detectives have arrested John Smith, a farm hand who was employed by Alvin M. Stone, on the charge of murdering Stone and his wife and Ira Stillson at Tallmadge ten days ago. Smith was discharged by Stone about two weeks before the murder, and it is said that he was in love with Flora Stone, the youngest daughter of the murdered couple. His attentions were discouraged by the girl's parents. Flora Stone said, the day after the murder, that the voice of the murderer sounded like that of Smith. The prisoner was lodged in jail here. He is a Slav, and his real name, by his own confession, is Romulus Cotelk.

Thomas Hitch is dead with a bullet in his brain and Ella Stamps is unconscious with a bullet hole in her head and probably fatally injured. It is supposed that Hitch attempted to kill the woman and then committed suicide, but some believe that the husband of the woman came suddenly upon the pair and did the shooting.

Will Neither Sign Nor Veto.

Des Moines, Iowa, April 9.—In an interview, Gov. Drake said that he would neither sign nor veto the bills recently passed by the general assembly making several changes in the judicial districts of the state adding six republican judges to the bench. He is personally opposed to the measure, but yields to the demands of the localities affected under protest, and allows the bills to become laws without approval.

Last of the War Governors.

Wheeling, W. Va., April 9.—Ex-Gov. A. I. Boreman, the first governor of West Virginia and the last of the war governors but one, is dangerously ill, and the worst is feared.

Will Have A. P. A. Opposition.

Washington, April 9.—"I believe the announcement recently made to the effect that Maj. McKinley would be opposed in convention and upon the stump by the influence of our organization can be accepted as official," said the most prominent A. P. A. man in congress. "I do not believe that any of our officers would make such a statement unless it was authorized, and from my own knowledge I can say that the sentiment among our leading members is not friendly to the Ohio candidate, and I believe the influence of our organization will be directed to defeat Mr. McKinley at the convention, and if we do not succeed I expect to see the opposition to him manifested upon the stump."

Two Conventions in Oregon.

Portland, Ore., April 9.—Both the republican and democratic state conventions meet in this city today for the purpose of electing delegates to the national convention, nominating the presidential electors and a justice of the Supreme court. The republican state convention will undoubtedly make a declaration on the money question on the lines of the national republican convention of 1892. The democratic state platform will favor the free and unlimited coinage of silver at the ratio of 16 to 1. The secretary of the democratic state committee said: "The convention will declare for free silver by a vote of 4 to 1."

Preparing for a Holy War.

Cairo, April 9.—The departure of pilgrims for Mecca has been suspended, which means that the Khalifa is calling upon his warriors to muster to his standard, and that the jihad (holy war) which he recently proclaimed against Egypt is to be pushed with all the desperate energy of the dervish leaders. The Khalifa expects to muster an army of 50,000 men, composed of the best fighting men of the Sudan at Omdurman by September, when the Anglo-Egyptian advance will be met by the Khalifa in person.

McKinley Men Named at Minden, Neb.

Minden, Neb., April 9.—The republican convention for the Fifth congressional district elected delegates to the St. Louis convention and instructed them to vote for William McKinley. The compromise effected in Omaha between the Thurston and Manderson factions seemed to have been forgotten by the republicans of this district, who are outspoken for McKinley and have, so far as is known, no other choice. Congressman W. E. Andrews was renominated by acclamation.

Thinks Bastian Burned His Victims.

Rock Island, Ill., April 9.—There were no new developments at the Bastian farm Wednesday other than the growing belief that fire played a more important part in all of the numerous crimes attributed to Bastian than has heretofore been suspected. The fact that no more bodies have been discovered may be explained by the fact that they were probably cremated and the ashes buried.

Yetzer's Sentence Is Affirmed.

Des Moines, Ia., April 9.—The supreme court has affirmed the sentence of J. C. Yetzer to the penitentiary for five years for wrecking the Cass County Bank. The bank contained \$500,000 in deposits at the time it was forced to the wall. Up to the present time only \$11,000 in assets has been found. The year before the failure a 90 per cent dividend was declared. What has become of the remainder of the money is a mystery.

Milwaukee, Wis., April 9.—The 800 employees of the Milwaukee Street railway are preparing to strike May 1 unless their wages are increased from 19 to 21 cents an hour. The men say they can only average \$1.43 a day on the present scale, as the company has reduced the time schedule so that they average only eight and a half hours a day. They have other grievances and claim to be thoroughly organized and able to enforce their demands.

NO REVENUE CHANGES.

Iowa Senate Refuses to Consider the Subject Further.

Des Moines, Iowa, April 9.—By a vote of 22 to 20 in the senate Wednesday it was determined to give no more time to the proposed changes in the revenue laws. It was proposed by the committee on ways and means of the two houses to raise the ratio for assessment of property for taxation from 25 to 50 per cent, and it was not proposed to lower the rate of taxation correspondingly, thus insuring a greatly increased revenue during the next two years. It was this provision which defeated the further consideration of the revenue bills.

In the house a bill to make druggists who sell liquors amenable to the payment of the mulct tax of \$600 per annum was defeated. The assembly has already made it illegal for the druggists to sell malt liquors.

FROM A SUNNY LAND A LETTER IS SENT

THE HON. FENNER KIMBALL
WRITES OF FLORIDA.

Tells W. F. Williams of the Delights of Tampa Bay—Steamer Ran Aground—The Fruits and Vegetables—Expects To Catch Many Fish—Climate Is Ideal.

W. F. Williams, clerk of the municipal court, has received a very interesting letter from Hon. Fenner Kimball, who is now at St. Petersburg, Florida. Mr. Kimball says that he can look over Tampa bay from the veranda, and that the bay is a beautiful stretch of water. Boats pass up and down frequently, he says, and the scene reminded him of Narragansett bay in Rhode Island, with which he is familiar. St. Petersburg is a city of 1,200 people, situated on rising ground. The trip from Mobile took two and one-half days and three nights, 22 hours of which were spent aground in Mobile harbor. Tugs finally released the steamer from the clay bank, however, and Mr. and Mrs. Kimball enjoyed the ride very much except for the fact that the latter was compelled to part with her dinner.

Fruit and Vegetables Raised. "We spent eight days in Mobile and had fine weather all the time, it being slightly cool morning and evening." Mr. Kimball continues: "We stopped four days in New Orleans. We used this time to good advantage visiting all places of interest, viz: West End, Spanish Fort, Charity Hospital, the cemeteries, Jackson battlefield, at Chalmette, Levees, etc., etc. You will notice in this letter that I began it where I am now and went backward over the route.

"Where I am sitting I look out on banana bushes, pineapple plants orange groves, palmetto trees, strawberry beds, ripe berries (which we have on the table every day) and plenty of fresh grown vegetables. We spent one day on Manatee river, about thirty-five miles from here, where great quantities of cabbages and other vegetables are grown, and being daily forwarded to northern markets. The orange groves are better up the Manatee river than they are directly here. We went into orchards where oranges of last year's growth were yet hanging on the trees with the blossoms for this year's crop. Mrs. Kimball asked permission to pick one orange from the trees, which was kindly granted. This orange we will bring home with us. The owner there picked her a beautiful bouquet of fine roses from his rose garden (of which he had a profusion), and presented them to Mrs. Kimball, for which we were thankful.

The Climate Is Fine. "Well, now, about climate here. We are so far south (as you will see by looking at the map) that frost seldom visits this section. It is warm here now and nice to be out doors. The people do not find it necessary to heat the houses except a short portion of the winter and then only occasionally. The thermometer has ranged for the last four days from 70 to 80 degrees. It is now 9:55 o'clock a. m. I have just looked at the thermometer on the veranda; it registers 82 in the shade, and the prospects are that by 1 p. m. it will be 85 or 90; so we sit here reading the papers, gossiping with the boarders, telling fish stories, &c. I just stopped writing a few minutes to enjoy a call on us by Mrs. Frank Jackson, who lives here. Her husband is a son of A. A. Jackson. He is a minister of the Congregationalist persuasion. His wife was youngest daughter of Mrs. Little, formerly of the Institute for the Blind. Well, friend Williams, I think I have written all that you will care to wade through, and will close by saying that we are well as usual, enjoy our rations, and sleep well. I have not been fishing yet, but hope to chronicle the hooking of some Spanish mackerel, hays trout, and perhaps a tarpon, and then my reputation as a fisherman will be complete. With great regard to you and yours, also to Judge Phelps, I subscribe myself respectfully,

FENNER KIMBALL.

40 YEARS THE STANDARD

THE PUBLIC KINDERGARTEN.

The Outlook for the School is Very Encouraging.

The report of the treasurer of the public kindergarten shows a hopeful state of affairs. The cost of maintaining the school for the winter term beginning January 1, has been in the neighborhood of \$100, of which sum \$30.25 has been received in tuition fees. The balance has been cheerfully contributed by All Souls church. The feeling prevails that this kind of work is right in line with the highest religious enterprise. No pains will be spared to make this child school a positive benefit to the city. The spring term opens April 13. Three teachers will be in attendance to receive all the pupils who may choose to come. During the term now closed forty-six pupils have registered. A large increase is expected in the spring term.

In connection with the school there will be organized a mothers' club for the systematic study of child culture, and the discussion of all phases of the mothers life. It is expected that the mothers of all the pupils and as many others who care to take up the work will join in this new organization. An eminent educator says: "I believe every mother should be a true kindergarten. That would be an uplifting and bettering of the race. Every young woman should likewise be a kindergarten. The world needs motherhood—competent motherhood."

STUDENTS AFTER THE MEDAL

Many To Contest For The Mahoney Oratorical Prize, April 10.

The second annual contest among the students of the High school will be held at the Myers Opera House, Friday evening, April 10. A year ago, a diamond medal was offered by J. L. The work done in the preliminary contests, which were held last term in the High school, was of unusual excellence. Each class secured representation in the finals and, the rivalry for honors is keen. Excellent music will add to the program and not only those interested in the work of the young people, but any who wishes to hear a first class entertainment will be pleased.

Another gold medal is now being competed for by the members of the Christ Church Cadets. This trophy is the gift of Rev. A. H. The medal is a handsome one, and if it is won three times in succession by the same member, it then becomes his property.

Pierce, Republic, Ia., says: "I have used one minute Cough Cure in my family and for myself, with results so entirely satisfactory that I can hardly find words to express myself as to its merit. PORTER GIRL'S ARM CHOPPED.

Hand Almost Severed While Playing With an Ax—Other News.

Porter, April 9.—A little daughter of Henry Sperry's had her hand nearly severed at the wrist last Saturday. She and another sister were playing in the yard, and unfortunately found an axe with which one nearly cut the others hand off. Whether the injured member can be saved is not yet known.

Miss Ella Corcoran, and brother Edward, spent Sunday here. Miss Della Harris, of Evansville, was a guest of D. Tolles part of last week. Will McCarthy had the honor of carrying off the silver medal at the Boys' Suffrage Contest, in Cooksville, on Friday evening. His declamation was "Fair Play For Women."

Mr. McCarthy leaves for Nebraska in about two weeks where he will take up the study of law. He will be missed by his many friends, but they all wish him the best of success. Farmers are all busy in spring work, and house-cleaning is the order of the day indoors.

Married, in St. Joseph's church, Edgerton, by Rev. Father Harlin, on Wednesday, April 8, Robert Heffernan and Miss Hannah Conway. The young couple commence life together with the best wishes of their many friends. We mail our items too early to give the result of election, but of course the republicans will win laurels as usual. Don Van Wart is home from Beloit, where he has been attending school. Miss Julie McCarthy is spending the week with her sister in the town of Fulton. Miss May Tracy, of Burr Oak, was a caller on Sunday. S. W. Martin, of Stoughton, was pleasant caller last Monday. Claude Hendrick returned from the university Friday. He thinks seriously of entering the law office of Mr. Olancy, in Stoughton. F. No sick reported last week; for the first time in a long while.

BRADFORD OFFICERS RE-ELECTED

Choice Was Made Very Quietly—Other Events at the Grove.

Emerald Grove, April 9.—Election day in the town of Bradford was a quiet one. All the present officers were re-elected. The annual meeting

of the Emerald Grove Cemetery association will be held in this place Friday evening, April 17. All members of the association please attend. The past week has been much colder. No sowing done in this neighborhood yet. A number are plowing and getting prepared for seeding when the weather gets warmer. The roads are smooth and dusty something not seen at this season of the year. The sermon at the Congregational church next Sunday will be from the text: "Whom the Lord Loveth He Casteth and Scourgeth Every Son Whom He Receiveth." Miss La Verna Gilles has gone back to Beloit to resume her studies. The dancing party managed by Fred Boss and Arthur Butler, at the home of Mr. and Mrs. A. D. Barlaes was a pleasant affair, many coming a long distance to attend. Miss Nettie Butler, who is sick with scarlet fever, is getting along very nicely, it being a mild case. The place is under strict quarantine and we do not look for any further trouble. Myron Hart, of Janesville, formerly of this vicinity, was buried in the cemetery here last Sunday afternoon. Gillies & Jones are offering galvanized hidden iron wire at 2 1/2 cents per pound. Abraham Davis has moved from Janesville back to this village.

RESOLUTIONS FOR WILLIAM PAUL

Rock County Pomona Grange Mourns His Untimely Death.

At a regular meeting of Rock County Pomona Grange, held April 1, the following resolutions were unanimously adopted, on the death of Brother William Paul:

WHEREAS, The great tragedies of life—birth, death, living, loving and losing come to us all alike and are the inevitable penalties of existence, and death no respecter of persons, so the silent messenger has again entered our ranks and summoned to himself our loved and respected brother, William Paul, who passed over the river which lies in the confines of life, January 14, 1896.

It is therefore meet that we as a grange give expression to the regard and esteem in which our deceased brother was held among his fellow members. As his many excellencies, active and unselfish grange and public spirit will be greatly missed, for he possesses many shining qualities of heart and mind. Qualities which won our admiration and respect, endearing him to all his fellow associates.

We therefore, as a society can but mourn his departure, for he was but young, in the very prime of life, cut off in the midst of his days. His sun went down while it was yet broad noon. He is gone from amongst us. But his was a life that needs no eulogy. The life he had lived, the good deeds he has left behind him will be his last monument, the shining luster of which will not grow dim in the memories of his brothers and sisters.

Therefore, Resolved that to his relatives and friends, we extend our sympathy in this their time of bereavement. Trusting the giver of all good will support them and in his own good time bring good out of apparent evil.

Resolved. That our charter be draped in mourning for sixty days. That a copy of these resolutions be sent to his relatives, also inscribed on a memorial page in our records and copy sent to the Janesville Gazette and Milton Journal for publication twice.

IMPORTANT TO SUFFERERS.

HOW YOU MAY OBTAIN A LASTING CURE FROM PILES.

No Surgical Operation, No Pain, Trifling Expense—A Simple, Harmless Remedy, But It Does the Work.

There are some people who have piles as frequently and regularly as other people have colds.

Any little bowel trouble will bring them on, an extra exertion, as in lifting, will produce them, and in fact will often appear without any apparent provocation. Piles, however, are much more serious than a cold, as the tendency is always to grow worse until the trouble becomes deep seated and chronic, or develops into some fatal rectal disease.

While there are many pile remedies which give relief, yet there is but one which not only gives instant relief but at the same time makes a permanent cure, and that is the well known Pyramid Pile Cure.

This remedy is composed of simple, harmless, vegetable ingredients, but combine so effectively and act so promptly and thoroughly that it cures every form of piles, whether itching, blind, bleeding or protruding.

In long standing cases the Pyramid Pile Cure has proven to be the only certain cure except a surgical operation, and its advantages over an operation are many, as it is painless, causes no delay or interference with daily occupation and, last but not least, is cheaper than any surgical operation could possibly be, costing but a dollar a package at any drug store.

The cases that the Pyramid Pile Cure will not reach are so few that physicians are doing away with operations for piles and depending on this cheap, but effective remedy to accomplish a complete cure, and it never disappoints except in cases beyond the reach of medical skill.

The Pyramid Pile Cure is prepared by the Pyramid Drug Co. of Albion, Mich., and for sale by druggists everywhere at 50 cents per package. Each package contains a treatise on cause and cure of piles, together with testimonials from every section of this country.

CORINNE MADE A GREAT HIT

Minneapolis Charmed by the Actress Who is Here Tonight.

In speaking of "Corinne" who appears at the Myers Grand tonight, the Minneapolis Tribune says in the course of a column article, The "Peerless Corinne," at the head of a big company, presented the operatic extravaganza, "Hendrick Hudson, Jr." to a large audience at the Bijou last night.

"Hendrick Hudson, Jr." is familiar to Minneapolis audiences, but the genius that guided it had a deft way of keeping all attractions with which her name was associated thoroughly up to date, and the play returns improved in every respect. The burlesque which starts with Christopher Columbus, ends with "Trilby" and in between there is entertainment enough for two or three ordinary ventures in the same line.

Corinne herself threaded the bewildering scenes of light and color, and melody, with all her old time vivacity and singing and dancing her way into the hearts of her audience with the carelessness of a child. Her songs and mandolin solos were enthusiastically received and all her efforts to please were artistic and satisfying.

GET OUT BULLETINS FOR FARMERS

State Will Send Out Literature For the Soil Tillers.

The Experiment station of the University of Wisconsin will shortly issue two bulletins for general distribution among the farmers of the state. One describes the hot water treatment for the prevention of smut and oats on other grains. It is a simple, inexpensive method and should be generally adopted by farmers, who can save a vast sum in the aggregate at no material expense to themselves. The second bulletin treats of the fertility of the soil and commercial fertilizers. It will contain a list of all commercial fertilizers licensed to be sold in the state of Wisconsin during the current year. These bulletins will go to all farmers on the regular mailing list of the station. Those farmers whose names are not on the mailing list can have them placed there by sending a request by postal card.

You are Anxious for the Health of your Family.

EACH attempted imposition of an alum baking powder upon you is a covert attack upon the health of your family. Of course, no grocer would knowingly sell injurious food to his customers; but he has himself been deceived as to the true character of alum powders by their manufacturers, who must be held responsible for the damages.

Forewarned, and solicitous for the health of her family, the housewife will be influenced to a constant watchfulness and a stubborn resistance against the danger.

Baking Powders sold at a lower price than Royal, either wholesale or retail, are almost invariably made from alum, and therefore inferior and dangerous to health.

Royal Baking Powder is free from alum, lime, or ammonia, and absolutely pure. Its use is a safeguard to health, for it actually aids digestion, and relieves from all anxiety as to the wholesomeness of the food.

TO EXTEND THE LINE IF PEOPLE WISH IT

STREET RAILWAY COMPANY WILL SPEND MONEY.

If Business Warrants a Loop Around Through Spring Brook and Monterey, It May Be Built—Superintendent Cummins Talks of Future Plans—Directors Meet.

Do Janesville people want a street car loop to run from Spring Brook around through Monterey?

If they do they can have it.

So says Superintendent Cummins.

The directors of the company held a meeting at 10 o'clock this morning at the power house. All the directors were present except W. R. Proudfoot and G. W. Blabon. Numerous changes in the equipment of the line were considered and plans talked over for better service, such as to the depots, the schools and the theater. During the noon hour, the men will be relieved by extra men, so that the cars will be kept running with no intermission.

Superintendent Cummins was seen this morning by a Gazette man and stated that if the people showed their appreciation, it was the company's object to make the line first class in every respect.

May Build an Extension.

With reference to more extension being built, Superintendent Cummins said that if the business warranted it, a loop might be built around the Spring Brook addition, through Monterey and into the residence portion of the Fourth ward.

Mr. Cummins is an expert in the street railway business and has been for the past nine years, superintending the construction of different electric lines. He will not move his family here until the success of the road is assured. No conductors will be employed for the present and the men who have been engaged are Charles Reeder, George Warner, Frank Chapin, E. W. Collinsworth, Andrew Gibson, Thomas Kelly, Albert Reeder and William Murphy.

People who are interested in the line and want to see it extended, should now come forward with their nickels, and make improvements possible.

YOUTHFUL THIEVES

ARE NOW IN JAIL

BELOIT BOYS MUST SERVE TWO MONTHS.

Harmon Keopflin and Henry Sharp Are Convicted of Stealing a Silver Watch from G. O. Goulson, of Orfordville—Both Are Seventeen Years of Age

Two seventeen year old Beloit boys are lodged in the Rock County jail, booked as thieves.

The youngsters are Harmon Keopflin and Henry Sharp and both claim they live near the Line City.

During a recent visit to the village of Orford they became acquainted with G. O. Goulson. They became so well acquainted, Goulson says, that when they left they took his silver watch. The timepiece was one he valued very highly, so he swore out a complaint charging the boys with the theft. They were soon arrested, and convicted in the Orfordville court. The sentence was that each should serve sixty days in the county jail, and it is this contract that they are now filling.

INTEREST DOES NOT ABATE.

The Shoe Sale of Becker & Woodruff Draws Large Crowds Daily.

It takes a bargain to catch the purchaser and with over 6,000 pair of bargains to start a \$3.00 sale on we were pretty reasonably certain of catching most all the people who were obliged to buy, and a great number who would buy simply because shoes were cheaper than they ever had been or ever would be again. We have sold a great many shoes since we marked every high grade shoe in the house down to \$3.00, and the cheaper grades proportionately. People generally are awake to the fact that they can get the finest made shoes at half what they usually paid for them, and the sales each day show an increase over the day before. Don't fail to be among those lucky enough to secure shoes at low prices. Becker & Woodruff.

"Why, Mr. Blivens," said that young man's landlady, "you have some very extraordinary ideas in preparing your food."
"Do you think so?"
"Yes. Might I inquire why you dropped a lump of butter into the tea?"
"Certainly. In this life the only chance of universal happiness lies in the hope that the strong may be taught to assist the weak."—Washington Star.

Two Kinds of Loss.
Two of the lady survivors of a railroad wreck were bemoaning their losses to each other in the hospital after it was all over.

"Think of me," cried the other: "I have lost my husband."
"Yes, yes," moaned the first, "but you can get another husband."—Truth.

What He Might Do.
"I don't feel able to do any work on my story to-day," said a writer to his wife. "My head is badly muddled."
"Then I wouldn't try to write, dear," replied his wife, soothingly. "Suppose you just turn off two or three poems to-day."—Judge.

Lydia E. Pinkham's Vegetable Compound
Will cure the worst forms of female complaints, all ovarian troubles, inflammation and ulceration, falling and displacements of the womb, and consequent spinal weakness, and is peculiarly adapted to the change of life. Every time it will cure Backache.
It has cured more cases of leucorrhoea by removing the cause, than any remedy the world has ever known; it is almost infallible in such cases. It dissolves and expels tumors from the uterus in an early stage of development, and checks any tendency to cancerous humors. Lydia E. Pinkham's Liver Pills work in unison with the Compound, and are a sure cure for constipation and sick headache. Mrs. Pinkham's Sanative Wash is of great value for local application.

HO! FOR MISSOURI.

There is certain to be a decided activity in the sale of Missouri farms this year. During the last six months inquiry for improved farms in Missouri has been greater than ever before. There is no part of the West where more inviting prospects abound for the farmer, and but for the hard times all over the country there would be an actual boom in Missouri. The farmer who is looking for perpetual summer and never failing deposits of moisture, land that will raise abundant crops, and other Eden-like conditions, which everybody would like to have, will search in vain for those conditions, but if he will stop in Missouri and settle down to business he can approach nearer to his ideal than he can anywhere else in the Union. It has been the experience of Missouri farmers, that they have had as many blessings of Nature and as great a degree of prosperity as those of any other section of our great country. Missouri no longer turns the cold shoulder to home seekers. There is not a nook or corner of the state where the security of property, now, is not as well assured as in any other state in our land. Taxes are generally very low, and very much lower than they are in Wisconsin. Political opinions are no bar to the enjoyment of every right of citizenship. Sure crops, ample transportation for all products of the soil, convenient markets, cheap fuel, mild climate, abundance of timber of all kinds, pure water, nutritious grasses, blue grass pastures, and above all her vast crops of all kinds of fruits are among the advantages to the farmer. No state or locality leads MISSOURI in the production of fine fruits. Not even France or Spain, with their vast vineyards, have any advantages over Missouri in fruit-growing. In four years' time we have sold over \$300,000 worth of improved farms in Missouri. We are now prepared to sell improved farms, in thickly settled locations with lands as good as any in Wisconsin, at from \$20 to \$40 per acre. We can furnish excursion rates to Macon, Mo.
We have A MOST BEAUTIFUL FARM of 800 acres right at a station of 3000 inhabitants on the Santa Fe railway, in Lin Co., for sale at \$35 per acre. The buildings and improvements on this farm cost over \$12,000. Can give time on two-thirds of price at six per cent. interest.

TEN DOLLAR BILL FOR THE BEST AD

GAZETTE'S APRIL OFFER TO ITS FRIENDS.

The Person Who Comes Nearest to Picking Out the Best Ad From The Gazette Each Day in April Will Be Presented With a Crisp Green-back.

A ten dollar bill—crisp and fresh—hangs in a frame, in the Gazette office. What is it for?

Just this. In every issue of The Gazette there appear a good many pretty good ads and a good many pretty poor ones.

The good ones bring profit to the advertiser and cause his face to be wreathed with smiles.

The poor ads cost just as much, but produce less result, and induce a loss of faith in the value of advertising.

This is all wrong!

We want more GOOD advertisements. The way to make a good advertisement is to try to make a good one—try hard.

To encourage good advertising The Gazette inaugurates this friendly contest.

The \$10 bill goes to the reader who selects the best display ads that appear in The Gazette during April—one each day.

These are the conditions: One display ad. It is to be clipped from each issue of the Daily Gazette for April and marked with voter's name and the date of issue.

The bunch of advertisements—one from each issue in April—are to be mailed to the Gazette before 6 p. m. Saturday, May 2.

Voters may prepare more than one list if they choose.

The best ad, for each day will be determined by counting the ballots sent in at the end of the month. No ad. is to appear twice in one list.

The contest is confined to display ads only—reading notices or locals. Janesville ads only.

size, the typographical beauty and verbal cleverness are not the essential qualities. The "best ad" under the terms of this contest, is the one that seems likely to draw the most business. No matter if the wording be clumsy and the typography poor, the ad. that brings results, is the best ad the world over.

The ad that makes a hundred people say "That's a fine ad" is good, but the ad that makes a dozen people buy, is better.

Read these conditions carefully, subscribers and non-subscribers, and get your scissors ready.

An Unfair Advantage. I envy the man who makes Mabel her shoes. Because, to get down to the root, we both take our orders from her, but, you see, the cobbler has Mabel to boot.

—N. Y. Herald.

Bicycle Season Is Here. Mrs. Yeast—I understand our minister is going to preach a sermon to bicycle riders next Sunday.

Mr. Yeast—I suppose he'll call it the "Sermon on the Mount!"—Yonkers Statesman.

Exact Science. Brace—I have \$11 more than I had yesterday; now guess how much I have?

Bagley—Eleven dollars.—N. Y. World.

An Unjust Arrangement. "In battle musicians are always kept in the rear."

"That's not fair. Many of them richly deserve killing."—Chicago Record.

Too Much. "Did you refuse him because he was so old?"

"No; because he said he felt as if he had known me all his life."—Truth.

Out of Reach. Miss Flora (in a pair of stupendous sleeves)—How do I look, Ned?

Ned (rapturously)—You're simply unapproachable.—Boston Transcript.

Why is one woman attractive and another not? The most admirable and attractive thing about an attractive woman is her womanliness. Everybody admires a womanly woman. She must have health, of course, because without it she would lose the brightness of her eyes, the fullness of her cheeks and her vivacity. Real health must mean a womanly woman. That she is strong and perfect in a sexual way, as well as in every other. That she is capable of performing perfectly the duties of maternity. Some are born with what is called "constitutional weakness." Those who do not enjoy perfect health, need only take the proper precautions and the proper remedy to become perfectly well and strong. Dr. Pierce's Favorite Prescription will cure any derangement of the distinctly feminine organism. Sold by druggists.

The rainbow has a rival==

---in the new spring millinery for the season of 1896. The line is not drawn and color seems to run riot, so do not be surprised when you see the staid matrons and mothers with headgear likened into a miniature flower garden, for fashion demands it and so it will be. April marks the opening of the millinery season and more varied or prettier styles were never before shown than is the rule today.

The leading millinery houses of America have been drawn upon for this department, and the showing is a most complete one, with many novelties which are confined exclusively to us.

A half hundred Pattern Hats adds to the attractiveness of Janesville's leading millinery display, and, as always, new ideas will be first seen here. The splendid business with which this department is favored simply adds force to our claim that up-to-date millinery at popular prices is a winner.
